

## Super Finishing Jaws

### The Package Includes:

- 4 Cast Aluminum Flat Jaws
- 8 Rubber grippers 1/2" Long - 6mm thread
- 8 Rubber grippers 3/4" Long - 6mm thread
- 1 Allen wrench for mounting Jaws

### Features:

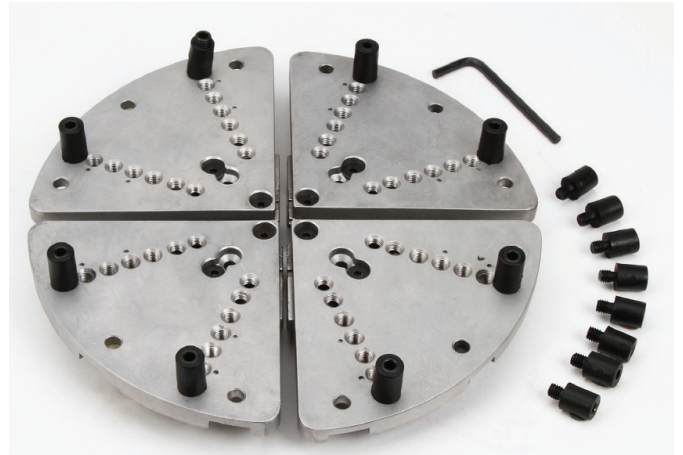

- Will fit all PSI "C" Series chucks
- Used for finishing the bottom of bowls and plates
- Grips bowls up to 8-1/4", minimum of 2-1/4"
- 7 Bowl rim positions
- Cast aluminum construction

### How to use:

- Remove the hex screws and pry jaws off the chuck.
- Clean any dust from tracks on the chuck.
- Install the jaws over the tracks and tighten the screws.

**NOTE: To use the super Jaws over the quick change chuck, an adapter Item# CSCBARR5A**

- Mount either shorter or longer set of grippers, depending on the size of the project.
- Adjust pin location, according to diameter of the piece.
- **DO NOT** over tighten the Jaws around the project.
- When turning the wood, do not apply excessive pressure with the chisel and do not exceed the speed of 800 RPM.
